**5. CLAIM FOR BASIC PER DIEM PAYMENTS FOR ELIGIBLE VETERANS**

Lines 21, 22, 23 and 24:

Column A. Days of Care: A day of care for Domiciliary and Nursing Home is counted when an eligible Veteran has an overnight stay in the facility. Enter total domiciliary days of care on line 21, nursing home care on line 22 and adult day health care on line 23. For domiciliary: A day of care is counted when an eligible Veteran is present or on authorized absent from the facility up to 96 hours for purposes other than receiving hospital care at VA expense. If a Veteran is absent more than 96 hours, no portion of the absence is counted as a day of care. For nursing home: A day of care is counted when the VA pays per diem for an eligible Veteran resident on bed hold for 10 consecutive overnight hospital stays or non-hospital leave. For adult day health care, a day of care is credited when the Veteran is under the care of the facility to include transportation for at least six hours in one calendar day or any two periods of at least 3 hours each (but each less than six hours) in any two calendar days in a calendar month. The day of admission is counted as a day of care. For all three levels of care, an admission and loss on the same day is counted as a day of care; day of discharge (removed from the rolls) is not counted as a day of care.

Column B. Average Daily Census: Enter the average daily census computed by dividing the days of care in column A by the number of calendar days in the month, carried to one decimal place for each level of care.

Column C. Direct and Indirect Cost (Allowable Cost): Enter the total of direct and indirect cost (allowable cost) for providing care to all residents in the home for the month regardless of the payer source.

Column D. Daily Cost of Care for the Month: The daily cost of care for the month is column C (direct and indirect cost), divided by ALL residents' days of care. Compute cost in accordance with cost principles set forth in the Office of Management and Budget (OMB), "Uniform Administrative Requirements, Cost Principles, and Audit Requirement in Federal Awards" (2 CFR Part 200.400 to 475 for cost principles). To calculate the daily cost of care, divide the direct and indirect cost for the month in column C by the sum of days of care for each level of care for all residents (line 20 non-eligible Veterans and Civilians, and columns A of 21 through 26). For Dom - add 20A and 21A; for NHC - add 20B, 22A, and 25A; and for ADHC - add 20C, 23A, and 26A to obtain the figure to divide the direct and indirect cost for the calculation of the daily cost of care for the month.

Column E. Per Diem Claimed: Enter the current fiscal year per diem rate or one-half the daily cost of care shown in column D carried to two decimal places, whichever is the lesser, for each level of care. VA will pay monthly one-half of the cost of each eligible Veteran's care (domiciliary, nursing home, or adult day health care) for each day the Veteran is in a facility recognized as a State Veteran Home, not to exceed the approved per diem rate for that level of care.

Column F. Total Amount Claimed: Enter the product of columns A and E for each level of care on lines 21, 22, and 23. On line 24, sum the totals for each level of care.

Column B. Average Daily Census: Enter the average daily census computed by dividing the days of care in column A for each level of care by the number of calendar days in the month, carried to one decimal place.

Column C. Prevailing Rate: Enter the VA prevailing rate for Fiscal Year as published by SHPDP Office.

Column D. Total Amount Claimed: Using the VA prevailing rate methodology, multiply the days of care from line 25 and 26 in column A by the prevailing rate in column C.
